

2M Language Services Announces Austmine 2023 Sponsorship

[Austmine 2023: Transforming Our Future](#) will take place in Adelaide, Australia from May 9 - 11 2023. Organised by the leading industry association for the Australian Mining Equipment, Technology and Services (METS) sector, the conference will focus on leading-edge technologies, open innovation and forward-thinking strategies aimed at re-designing how mining operates to ensure the expectations of the new generation are met.

As a leading provider of language technology and language services for the mining sector, 2M is dedicated to supporting the growth and development of the industry. With its sponsorship of the Austmine 2023 conference, 2M will present its secure suite of technologies and services powered by advanced AI and human expertise to mining and METS attendees.

Of the sponsorship, 2M CEO Tea Dietterich says, "We look forward to showcasing our solutions that leverage people, innovation and technology and shorten time to market for mining and METS companies. Developed within our R&D department and in accordance with our ISO 27001:2013 certification for Information Security Management Systems, our solutions are purpose-built to help navigate sustainability challenges in the sector."
